

The promise of gold bars should be implemented immediately..National Federation of Indian Women (NFIW) District President Somana Savita

““We will intensify the struggle for women's rights... Somana Savita ““(Yadadri Bhuvanagiri District Bureau.. Indian Chronicle.. July 31):- Before the Congress government came to power in Telangana, the government should immediately implement the promise made by the Congress party to give gold bars along with Kalyana Lakshmi to women on the occasion of marriage. Speaking after unveiling the association flag set up during the National Federation of Indian Women Mandal 3 General Assembly held in Bhuvanagiri on Friday, District President Somana Savita criticized the Congress government, which made many promises to women during the elections and came to power, for showing extreme negligence in implementing them. He said that women and young women from economically backward families are especially disappointed as the Tulam gold guarantee has not been implemented yet. He said that forgetting the promises made during the elections will damage the trust of the people. He said that thousands of women have become public representatives through women's reservation in local bodies, and he urged the central government to immediately implement 33 percent reservation to provide adequate representation to women in Parliament and Legislative Assemblies. He demanded that strict measures be taken to stop the increasing violence, discrimination and inequality against women and that rights like education, employment, health, security and equal pay be fully implemented for women. He said that extensive movements will be launched under the auspices of the National Federation of Women of India for the realization of women's

political, social and economic rights. They warned that if the government continues to delay implementing the promises made to women, they will launch democratic agitation programs under the auspices of the National Federation of Women of India. Donthi Nirmala, Beerakayala Lakshamma, Jinna Rajamani, Aadepe Shobha, Chatla Sharada, Itteboyna Aruna, Parusha Pushpa, Itteboyna Lalita, Andalu, Vani, Krishna Veni, and others participated in the general meeting chaired by Mumtaz Begum.

Theft of Equipment from Venkatapur Crematorium; Villagers Demand Strict Action

“Manthani Mandal, Venkatapur, July 29(Indian Chronicle): “The theft of government-installed equipment worth several lakh rupees from the crematorium at Venkatapur village on the banks of the Manair River has created concern among local residents. The facilities, established with financial support from the Central

and State Governments along with MLA and MLC development funds, were intended to provide essential services to the public. “As part of the Vaikuntha Dhamam initiative, a deep freezer (body freezer) and a Shiva platform were installed to preserve mortal remains during power outages or overnight until funeral arrangements could be made. To ensure uninterrupted power supply, the government also installed a solar power system comprising solar panels, batteries, and a charging unit at considerable cost. “According to villagers, unidentified miscreants allegedly addicted to marijuana, alcohol, and other intoxicants targeted these government assets. Taking advantage of the absence of people at the crematorium, they reportedly stole the solar panels, batteries, and the charging system. “Residents expressed anger over the incident, stating that the theft has dis-

rupted an important public service, making it difficult to preserve bodies during emergencies. They urged the local police and higher authorities to take immediate action. “Villagers also suspect that the same individuals may have been involved in the earlier theft of a solar-powered borewell pump installed by the Forest Department to provide drinking water for wildlife. “Demanding a thorough investigation, the villagers called on the police to identify the culprits, recover the stolen equipment, and initiate stringent legal action against those responsible. They also appealed for enhanced security measures to protect the crematorium and prevent similar incidents in the future.

Improving teaching standards in Telangana.. Government's responsibility in creating job opportunities for engineering graduates is significant:- Bhuvanagiri MP Chamala Kiran Kumar Reddy

“(Yadadri Bhuvanagiri District Bureau.. Indian Chronicle.. July 31):- Bhuvanagiri MP Chamala Kiran Kumar Reddy said.. ”In yesterday's meeting related to the education sector, Telangana Chief Minister Revanth Reddy did not target students. He mentioned that there is a need to improve teaching standards in Telangana and that many engineering graduates are facing difficulties in getting the necessary skills or employment opportunities. His intention is to focus on skill development by adapting the education system to the needs of the industries. However, KTR is trying to distort the Chief Minister's comments for political gains. It should be remembered that KTR entered politics because of his father's political legacy. On the other hand, great leaders like Abraham Lincoln and Winston Churchill in world history have been ”They have gone down in history with their leadership, vision, and willpower. Leadership is not determined by academic qualifications alone, but by the ability to work for the people, vision, and the trust of the people.”

Flipkart and Netflix Make World-Class Entertainment an Earned Shopping Benefit for Millions of Indians

“Hyderabad:” Flipkart and Netflix today announced a partnership that enables Flipkart Plus members to earn a Netflix Mobile Plan every month through their regular shopping, without a separate subscription or bundled recharge. The partnership brings together two experiences that are already part of customers' everyday lives, in a simple and rewarding way. It is the first time in Indian e-commerce that Netflix, the world's leading entertainment service, can be earned through everyday shopping rather than purchased separately or bundled with another service. The benefit will go live on August 1, 2026. “Customers who are not yet Flipkart Plus members qualify automatically after completing 15 orders within 12 months at no extra cost” Where Shopping Meets Entertainment “What makes this partnership distinct is the model itself, the Netflix benefit is not purchased or pre-included. It is earned through shopping behaviour, which means the more a customer engages with Flipkart's ecosystem — across daily essentials, grocery, and quick commerce through Flipkart Minutes — the more consistently they can access Netflix's library of acclaimed Indian and global titles. Shopping and entertainment, two things that are already part of everyday life for most Indians, now work together in a way they have not before.” The Consumer Opportunity “The partnership also reflects the changing expectations of India's young digital consumers. For Gen Z in particular, shopping and entertainment are deeply interconnected parts of everyday life. As digital natives, they increasingly seek experiences alongside value, making loyalty programmes that go beyond transactional rewards more relevant than ever. By bringing shopping and entertainment together, Flipkart Plus offers customers another meaningful way to get more from their everyday purchases.

“Hyderabad” Global technology brand OnePlus today launched the OnePlus N6x, expanding the N series with a smartphone designed to meet today's demand for style, dependability, and all-round power. It achieves this by combining a 7,000mAh mega battery, an updated design, and enduringly smooth performance, making it

an ideal daily companion. “A Battery Built for the Long Run” With a segment-leading 7,000mAh battery, the N6x delivers up to 2.5 days of use per charge, including up to 20.56 hours of video streaming, 133.56 hours of music, 25.04 hours of social scrolling, or 759.13 hours on standby. Even at 1%, Ultra Power Saving Mode keeps essentials running, offering up to 0.54 hours of calls, 7.59 hours of standby, or 0.22 hours of navigation. “The N6x is also engineered for long-term reliability, rated for 1,600 charging cycles and six years of battery health, retaining over 80% capacity even after year six, backed by four layers of protection against extreme temperatures, overcharging, drops, and compression. Bypass Charging reduces heat during

extended use, Reverse Charging powers compatible accessories, and Night Charging Mode adapts to sleep routines to prevent overcharging. “Style That Works as Hard as You Do” The N6x brings elevated design to the entry smartphone segment. Available in Garnet-inspired Burgundy Red and Aquamarine-inspired Ice Blue, it pairs a refined finish with a clean vertical camera layout and softly rounded edges. A fluid 120Hz Eye Comfort Display delivers smoother scrolling and immersive viewing, while an oversized speaker rounds things out with up to 300% Ultra Volume. “Beyond its design, the N6x carries MIL-STD-810H military-grade durability, tested against temperatures from -40°C to 85°C, salt corrosion, sand and dust storms, and 25 consecutive drops onto marble. Four-layer ArmorShell™ Protection, comprising tough corners, airbag cushioning, hardened glass, and a reinforced aluminium frame, works alongside IP64 dust and water resistance to withstand accidental drops, splashes, and daily wear.

Signify introduces Philips FocusGlow range: Lighting engineered for eye comfort, without compromising on true colour

“Hyderabad” Signify (Euronext: LIGHT), the world leader in lighting, today announced the launch of the Philips FocusGlow range - a lighting solution built for the hours people spend reading, studying and working under artificial light. FocusGlow pairs high colour accuracy with reduced-flicker performance, giving everyday spaces a more comfortable, dependable source of light. “As more consumers spend longer hours at home reading, studying or working under artificial light, the demand for lighting that reduces eye strain without sacrificing brightness or colour quality continues to grow. The Philips FocusGlow range is designed to meet this need, offering a dependable lighting solution for households seeking comfort-led, everyday illumination.” Commenting on the launch, C Arun Kumar, Head of Consumer Business, Signify Greater India said, “at Signify, we design every product around how people actually experience light in their daily lives. With Philips FocusGlow, we're bringing together accurate colour rendering and meaningful eye comfort, so that whether someone is reading, studying or working at their desk, the light around them supports their eyes instead of straining them.” “True colour, where it matters most” FocusGlow's CRI >90 (Colour Rendering Index) keeps colours looking natural with less strain on the eyes a real advantage for reading, studying and any close-up work where getting eye comfort actually matters. “Comfort built for long hours” The lamp runs on Signify's EyeComfort Technology, engineered to reduce flicker during extended use. That makes it a practical pick for students, professionals and households looking to cut down on visual fatigue over long stretches of near work.
