PM Modi Presents Russian Translation of Thirukkural to President Putin

“New Delhi” 11 Sept 2026 “Indian Chronicle” “Prime Minister Narendra Modi presented Russian President Vladimir Putin with a Russian translation of the Thirukkural, the timeless Tamil literary classic authored by the revered poet-philosopher Thiruvalluvar, during a recent interaction between the two leaders. “The gesture was seen as a symbolic tribute to India’s rich cultural heritage and a reflection of the growing cultural ties between India and Russia. By presenting the translated work, Prime Minister Modi highlighted the universal relevance of the Thirukkural, whose teachings on ethics, governance, morality, compassion, and human values continue to inspire people across generations and geographical boundaries. “The Thirukkural, comprising 1,330 couplets, is widely regarded as one of the greatest works of classical literature. Written over two millennia ago, it offers profound insights into virtuous living, responsible leadership, and social harmony. The availability of the text in Russian enables a wider audience to access and appreciate the wisdom of Thiruvalluvar. “Sharing the moment, Prime Minister Modi noted that the Russian translation carries the eternal wisdom of Thiruvalluvar across languages and borders, reinforcing the idea that great literature transcends national and linguistic barriers. “Cultural observers have described the presentation as a meaningful step in promoting India’s literary and philosophical traditions on the global stage. The exchange also underscored the role of cultural diplomacy in strengthening people-to-people connections between India and Russia. “The Thirukkural has been translated into numerous world languages and continues to be celebrated as a universal guide to ethical conduct, good governance, and harmonious living, making it one of India’s most influential literary treasures.

Eco-Friendly Clay Ganesha Idols Distributed in Boduppal

“BODUPPAL, SEPTEMBER 11 (INDIAN CHRONICLE): As part of environmental protection initiatives, eco-friendly clay Ganesha idols were distributed to representatives of colony welfare associations in the Boduppal Circle under the direction of the Malkajgiri Municipal Corporation Commissioner and with the cooperation of the Telangana State Pollution Control Board. Deputy Commissioner A.

Shailaja distributed the idols. A total of 4,932 eco-friendly clay Ganesha idols were received by Boduppal Circle from the Malkajgiri Municipal Corporation headquarters and the Pollution Control Board. The idols include 3,933 eight-inch idols, 666 twelve-inch idols, and 333 fifteen-inch idols. “Speaking on the occasion, Deputy Commissioner A. Shailaja appealed to the public to use clay Ganesha idols and celebrate Vinayaka Chavithi in an environmentally friendly manner, keeping environmental protection in mind. SWM Assistant Engineer Mahesh and office staff participated in the programme. “Eco-Friendly Ganesha Idols to Be Distributed in Peerzadiguda Tomorrow Eco-friendly clay Ganesha idols will be distributed to representatives of colony welfare associations from Peerzadiguda and Medipally areas tomorrow from 9:30 a.m. at the Peerzadiguda Council Hall, Deputy Commissioner A. Shailaja said.

BRS Alleges Major 22A Land Scam in Telangana, Demands Accountability

“Hyderabad“11 Sept 2026“Indian Chronicle““ Bharat Rashtira Samithi (BRS) party has levelled serious allegations against the Telangana government over the inclusion of large tracts of land under the prohibited properties list governed by Section 22A, claiming that the issue has affected landowners across the State. “Addressing the media at Telangana Bhavan along with senior BRS leader and former minister T. Harish Rao, party leaders alleged that only around 16 lakh acres were on the prohibited list during the previous BRS government, while the figure had increased to nearly 1.16 crore acres after the present government assumed office. “The BRS described the development as a “22A land scam” and alleged irregularities in the process of placing properties on the prohibited list. The party further accused the State government of preventing its legislators from raising the matter in the Legislative Assembly. “BRS leaders alleged that their MLAs were forcibly removed from the Assembly because the government feared that questions over the handling of prohibited lands could expose alleged wrongdoing involving senior

members of the administration, including the Chief Minister and Revenue Minister. “The party said it would continue to pursue the issue despite what it described as attempts to suppress its voice. During the media interaction, BRS leaders also spoke with people who claimed to have been affected by the inclusion of their properties in the prohibited list. “The allegations are politically significant as disputes concerning prohibited properties and land records can have a direct impact on property transactions and ownership rights.

Government Degree College Uppal Commerce Department Secures Third Prize in State-Level Jignasa Student Study Project

“UPPAL, SEPTEMBER 11 (INDIAN CHRONICLE): The Commerce Department of Government Degree College, Uppal, secured third prize in the prestigious state-level Jignasa Student Study Project competitions conducted by the Telangana State Higher Education Department. “A special felicitation programme was organised at the college to honour the students and faculty members who brought laurels to the institution. “Speaking as the chief guest, college Principal K. Vijay Kumar said that four projects from different departments of Government Degree College, Uppal, were selected for the state-level competitions conducted by the Telangana State Higher Education Department during the current academic year. Students from the Physics, Chemistry, Commerce and other departments presented their projects at the state-level competitions. He said that the Commerce Department winning third prize was a matter of pride for the college. “The Principal and college staff felicitated and congratulated Commerce Department Head Dr. Satyanarayana and faculty member Anusha for their contribution to the achievement. “Principal Vijay Kumar appreciated the efforts of students Ruth Angel, Padma, Vaishnavi, Aditya and Abdul Wasi, who worked for several days, underwent project training and delivered effective presentations at the state-level competition. He said the prestigious award was the result of the students’ dedication and the guidance of their faculty members. “College Jignasa Programme Convener Dr. Chandrasagar coordinated the programme. Speaking on the occasion, he said that students from almost all departments of Government Degree College, Uppal, enthusiastically participated in the Jignasa competitions. He said that four projects being selected for the state level was a significant achievement, while the Commerce Department securing third prize brought immense happiness. He expressed confidence that, with more systematic efforts in the coming academic year, students from all departments would be encouraged to win first prizes at the state level. “Jignasa Committee members Dr. G. Tirupataiah, Vijay Kumar and Dr. Satyanarayana said that the Jignasa programme was highly beneficial in developing a research-oriented mindset among students. They congratulated the prize-winning students and faculty members. “Dr. Rajashree, Dr. Yamuna Rani Vijay Kumar, Dr. Anjaiah, Sravanthi and other faculty members and staff participated in the programme and congratulated the winners. The Principal, faculty and staff appreciated the Jignasa team for fostering a research-oriented approach among students and bringing recognition to the college at the state level.

Cyberabad Joint Commissioner(Traffic) Reviews Congestion Hotspots, Road Works in RC Puram and KPHB

“Lingampalli” 11 Sept 2026 “Indian Chronicle” Cyberabad Joint Commissioner of Police (Traffic) Sunpreet Singh, IPS, conducted an extensive review of traffic management and enforcement measures in the RC Puram and KPHB areas, with a focus on easing congestion, improving enforcement and ensuring smoother move-

ment at key traffic points. “Singh visited the RC Puram Traffic Police Station at around 11.30 AM and reviewed its functioning, deployment of personnel and traffic enforcement measures. He was accompanied by Traffic-II DCP Sheshadrini Reddy, IPS, ADCP Traffic-II A. Veeranna, the RC Puram Traffic Police Station SHO and other personnel. “During the review, the Joint Commissioner examined important traffic points handled by police personnel on a daily basis and compared enforcement data for 2025 and 2026. He issued instructions to strengthen enforcement and improve traffic regulation in the area. “Special attention was given to ongoing infrastructure projects, including the Lingampally RUB and flyover works and NH-65 road development works. Singh directed officials to take appropriate measures to minimise inconvenience to commuters while construction activities are underway. “The Joint Commissioner also inspected traffic movement around Lingampally Railway Station. He reviewed bus connectivity to surrounding areas, train movements and passenger footfall, particularly the number of passengers boarding and alighting during morning and evening peak hours. “Later, Singh visited major traffic points under KPHB Traffic Police Station limits, including Pragathi Nagar U-Turn and Remedy U-Turn. He personally assessed peak-hour vehicle movement and congestion-related issues at these locations. “Traffic personnel were instructed to closely monitor identified bottlenecks, respond quickly to congestion and ensure smooth and uninterrupted vehicle movement. Officials were also asked to prioritise commuter convenience and road safety while implementing traffic management measures. “The review forms part of Cyberabad Traffic Police efforts to strengthen on-ground traffic regulation amid increasing vehicular movement and ongoing road infrastructure works in key parts of the city.

Polytechnic alumni seek repeal of GO 97

“Hyderabad Correspondent, September 11 (Indian Chronicle): The Telangana Polytechnic Alumni JAC has demanded the immediate withdrawal of GO 97, opposing the proposed merger of polytechnic education with Skill India University and insisting that the existing system under the State Board of Technical Education and Training (SBTET) be retained. Speaking at a media conference at the Hyderabad Press Club, JAC State president Lalu Naik Ramavath said the government should prioritise the academic interests and future career prospects of polytechnic students before bringing about any structural changes in technical education. He said the alumni body would work with former students and take up the issue with Chief Minister A. Revanth Reddy, seeking his intervention for withdrawal of the order. EBC chairman Vallapu Reddy Ravinder said the existing SBTET framework should continue without disrupting the academic system. He urged the government to hold consultations with students, parents and alumni before taking any major decision concerning polytechnic education. The leaders said the proposed merger could create uncertainty among students and urged the government to reconsider the move. They also demanded that polytechnic education continue under SBTET and that GO 97 be revoked. The JAC warned that it would intensify its peaceful statewide campaign by bringing together parents’ committees and other JACs if the government failed to respond to the demands. The leaders said the alumni would continue their efforts until the issue was resolved in the interests of students. TSF president Srinivas Yadav, LPJAC president Mallesham Naik and Ghanta Srinivas were among those who attended the meeting.

ABVP Holds Dharna Demanding Hostel Facilities for Technology College Students

“Tarnaka, September 11: (INDIAN CHRONICLE) “The Akhil Bharatiya Vidyarthi Parishad (ABVP), Osmania University unit, organised a peaceful dharna in front of the university’s Vice-Chancellor’s office, demanding the immediate provision of hostel facilities for students of the Technology College. “The protest was held against the backdrop of the serious difficulties being faced by Technology College students

due to the absence of adequate hostel accommodation. Many students are reportedly struggling to find affordable and convenient lodging, which is affecting their academic routine, daily travel and overall well-being. Highlighting these concerns, ABVP representatives urged the university administration to take immediate and concrete steps to resolve the issue. “The protesters stated that access to safe and affordable hostel accommodation is an essential requirement for students, particularly those coming from distant districts and economically disadvantaged backgrounds. They appealed to the university authorities to treat the matter as a priority and ensure that the students are not forced to face further inconvenience. “Following the protest and the students’ representation, the university authorities responded positively and assured the protesters that necessary measures would be initiated to provide hostel facilities to Technology College students. The ABVP leaders welcomed the response and urged the administration to implement the assurance at the earliest. “The organisation also called upon the university authorities to maintain transparency in the allocation process and ensure that eligible students receive accommodation without delay. The protesters emphasised that resolving the hostel issue would provide significant relief to the students and help them concentrate better on their studies. “State Technical Cell Pramukh Suman Shankar, City Secretary Prithvi Teja, Osmania University President Gellu Shekhar, Secretary Mokshith, City Joint Secretary Dinesh, along with Nithin, Vivek, Bhanu and several students participated in the programme.

Banks Strike affects Commerce

BETTIAH/BIHAR, SEPTEMBER 11(INDIAN CHRONICLE)

“The Strike of banks in Bihar has badly affected the economic movement in the state and due to this the economic work paralysed. As the Strike was called on the 'Union Forum of Bank Union'. The bank staff has demanded five days work in a week as well as a need of review in P L I (Performance Linked Incentive) scheme. They also threatened that they would launch indefinite strike in case the government delayed to consider their demands. As the bank employees locked the main doors of the banks and sat on stairs of the bank buildings in support of their demands. After that the commercial activities and trades were badly affected. As it is noted that on 12 September the bank will be closed on the name of 2nd Saturday and on 13 September will be closed on the name of Sunday. The closed banking system of three days would badly affect the normal life of Bihar as well as the trade of the state. As most of the commercial activities are completed through the banks of the public sector but the closed operation in banks as Punjab National Bank, State Bank of India and others badly affected the commercial sector of the state. Several traders of Bettiah town said that the closed banking system of three days had affected their trade. Therefore the government should consider their demands for the welfare of the trade and flourished economy in Bihar.”

Flood Situation is Grim

“After the receding trend of the major rivers as the Ganga, the Gandak, the Punpun and the Budhi Gandak rivers in several areas of the state but flood situation is Grim in several areas where the flowing rivers are above the danger mark. As in Bhagalpur and Bhojpur districts of Bihar are facing the Grim situation of flood where the flood water of the Ganga has inundated several areas as well as made the marooned. As under Nawgachhiya locality of Bhagalpur flood water has paralysed the normal life. The flood of the Ganga entered several village after the damage of the embankments. Flood effected people were shift to other high places, schools and other government buildings. The team of NDRF and the SDRF have been deputed to rescue the people from flood porn area. As in Bhojpur district the flood water has affected Shahpur and Badhar localities where hundreds families became the victims of flood. Worst is the condition of the dwellers of Neknam Tola and Bakhora areas. The government has claimed to provide ration, food and other helps to the victims. As the several leaders of the opposition parties alleged, the help of government for the flood victims is unsatisfactory.”

S V U Raids

“On Friday the Special Vigilance Unit (SVU) team conducted raid in Patna in the five premises of a Superintending Engineer of the Jal Sansadhan Vibhag, Bihar named Rajendra Kumar and recovered various documents and brobe work is on. As it is alleged that the Superintending Engineer has earned property above his income. As the raid is on and further result is awaiting.”

As it is noted that in previous several corrupt officers and government staff have been trapped by the Vigilance team. Their properties have been seized by the government and after that they have to knock the door of the court. As the Special Vigilance Unit (SVU) in Bihar was formally announced by the former Chief Minister Nitish Kumar on Aug 15, 2007 during his Independence day speech and established this government agency in 2008. After that the raid agency became active and conducted several raids in different areas of Bihar and several corrupt officers and government staff were trapped. In previous several corrupt officers and government staff were trapped in different areas of West Champaran, Bihar.”

Illegal Weapons recover

“The Simultalla Police in Jamuyi district of Bihar recovered 3 illegal weapons from the cave of Haldiya hills and no arrest has been made in this connection. It may be suspected that the recovered weapons would belong to the Naxal groups. As Jamuyi district is known as Naxal affected district of Bihar. But with the duration of time in present situation Naxalism has been removed from the area. As the development work regards road connectivity, electricity supply and awareness of people as well as the strong will power of the government has abolished the germs of Naxalism from the several areas of Bihar. The modernization of the police and other facilities made the Naxal thought weak in the state. The adolescent of the state are active to take pen and computer in their hands in stead of weapons.”

Life Imprisonment is awarded

“On Friday the Upper District and Session Judge 4th Bagha, West Champaran awarded life imprisonment and also imposed a fine of one lac to an accused named Ashok Yadav S/O Chhote Lal Yadav, vill-Chhangurahi, PS -Ramnagar, West Champaran. As the Bagha police sources said that a case was lodged against the accused at Ramnagar PS as FIR No- 189/2022 dated 04/05/2022 under sections 365, 302, 201 and 120(B)

Eco-friendly Clay Ganesha Idols Distributed to Promote Environmental Protection

“Tarnaka, September 11(INDIAN CHORNICLE):” Free eco-friendly clay Ganesha idols were distributed to the public under the leadership of former GHMC Deputy Mayor Mothe Srilatha Shobhan Reddy on the occasion of Ganesh Chaturthi. “The programme was held on Friday at the former Deputy Mayor’s camp office in Tarnaka. Mothe Shobhan Reddy, member of the Telangana Government Agitationists Recognition Committee, also participated in the programme. “Speaking on the occasion, Mothe Srilatha Shobhan Reddy urged people to celebrate Ganesh

Chaturthi with devotion while also taking responsibility for protecting the environment. She said that idols made of chemicals and Plaster of Paris could pollute water bodies and advised people to install naturally made clay Ganesha idols and celebrate the festival in an eco-friendly manner. “She said the use of clay idols would help protect lakes, ponds and other water bodies from pollution. She urged people to consider environmental protection as their

responsibility along with preserving faith and traditions. “Mothe Shobhan Reddy said everyone should contribute to protecting the environment while preserving Telangana’s culture and traditions. She said the main objective of the programme was to create awareness among people about the importance of using eco-friendly clay Ganesha idols. “Local residents, leaders, activists and youth participated in large numbers and received the clay idols. The organisers appealed to people to celebrate Ganesh Chaturthi in an environmentally responsible manner.

Critical illness for a pregnant woman of 8 months

A collapsed woman with hypotension.. 108 staff who responded in a timely manner

.. “Nuguru/ Venkatapuram. Indian Chronicle. setembar 11. “Kaka Swapna (20), an eight-month pregnant girl from the village of Penkavagu in the Panchayati region of Mulugu district Venkatapuram Mandal Thippapuram suddenly collapsed due to severe hypotension. Family members were alarmed and immediately called 108 after experiencing severe abdominal pain following a forward fall. “The 108 ambulance crew, who received the information, reached a village of EMT Raj Kumar and pilot Venkatesh Huthahutina. Staff who looked into the situation provided immediate first aid to the pregnant woman on site and transported her without any delay to Venkatapuram Government Hospital. “It is reported that the doctors conducted tests on the pregnant woman and then referred her to Atunagaram Hospital as she felt there was a need for better healing, medical monitoring. Family members were relieved when 108 staff responded in a timely manner and transported the pregnant woman to hospital during an emergency.

Identify ancient manuscripts, inscriptions for digitisation.

Karimnagar September 11 (Correspondent): Additional Collector Ashwini Tanaji Wakade has directed officials to identify and collect ancient palm-leaf manuscripts,

books and inscriptions available in Karimnagar district as part of the Gyan Bharatam Mission launched by the Union Ministry of Culture to preserve and digitise India's traditional knowledge.

Ms. Wakade issued the directions at a meeting with officials of the Education, Archaeology, Endowments, Minority Welfare, Tourism and Information departments at the Collectorate here on Friday.

She asked officials to identify ancient writings, verses and inscriptions engraved on stone and metal, besides manuscripts written on palm leaves. Valuable manuscripts and inscriptions could be found in places of wor-

ship and historical locations, she said, calling for efforts to trace material dating back several decades.

Manuscripts in Sanskrit, Telugu, Urdu, Arabic, Persian and other languages, including those written on copper plates and palm leaves, should be identified and digitised, she said.

Language scholars and officials of the Archaeology, Tourism and Endowments departments should work in coordination to identify, document and preserve the ancient knowledge for future generations, Ms. Wakade said.

Members of the public possessing information about ancient manuscripts or inscriptions belonging to the district have been requested to contact 9640967943.

District Revenue Officer Swami and officials of the departments concerned attended the meeting.

Ensure no eligible voter is left out during SIR: Collector Chitra Mishra.

Karimnagar September 11 (Correspondent): District Collector Chitra Mishra has directed officials to exercise utmost caution while scrutinising electoral rolls as part of the Special Intensive Revision (SIR) of voters.

Reviewing the scrutiny of 'no-mapping' voters at the Tahsildar's office in Thimmapur on Friday, Ms. Mishra said no decision should be taken without proper supporting evidence. Officials should collect the required documents from persons who had received notices and verify them thoroughly before taking further action, she said.

She sought details of the exercise from Tahsildar Karra Srinivas Reddy and reviewed the progress of the scrutiny.

Ms. Mishra instructed officials to upload the documents collected from notice recipients through the BLOs' app and record the details of each case along with the supporting evidence as prescribed. Revenue officials should regularly monitor the work being undertaken by Booth

Level Officers (BLOs) in villages and address issues encountered during field verification, she said.

The Collector laid particular emphasis on deletions from the electoral rolls. "Every precaution should be taken to ensure that the name of an eligible voter is not deleted inadvertently," she said, directing officials to base further action only on properly verified documents.

She also asked officials to maintain records of the no-mapping exercise, including voters' names, dates, reasons for issuing notices and documents submitted.

Ms. Mishra directed officials to follow the prescribed procedures while processing Form 6 applications for enrolment of new voters, Form 7 applications for deletion of names, particularly those of deceased voters, and Form 8 applications for corrections and changes in electoral roll entries.

Telangana rice millers announce indefinite shutdown over CMR demands

“Hyderabad Correspondent, September 11 (Indian Chronicle): Rice millers across Telangana have decided to keep their units shut indefinitely, demanding a review of the existing Custom Milled Rice (CMR) arrangements and immediate measures to prevent what they described as a serious disruption of the State's rice milling system. The decision was announced at a press conference at the Hyderabad Press Club, where Rice Millers Welfare Association president Ganapathi Reddy, general secretary Ootukuri Veeresham and vice-president Dhanalakshmi handed over a symbolic mill key to Telangana movement leader Syed Rafi, seeking his continued guidance and support for their campaign. The association said millers in all districts had already locked their units and symbolically handed over the keys to the respective Collectors, Joint Collectors or Revenue Divisional Officers. The move followed repeated appeals to the government through the media to address their concerns, which the association said had so far failed to elicit a positive response. The millers are particularly seeking changes to what they termed a unilateral CMR agreement and measures to protect the viability of the milling sector. They objected to attempts to portray millers as being at fault and said the industry should not be pushed into further uncertainty without addressing its operational and financial difficulties. Calling for a high-level committee to examine the problems confronting the sector, the association said the issue extended beyond mill owners, as the industry supports thousands of workers and forms an important link in the State's foodgrain management system. The association said the shutdown would continue until its demands were addressed and pledged to pursue the agitation peacefully and collectively under Rafi's guidance. The association has submitted a set of 13 demands covering the protection of the milling industry, farmers' interests, employment and food security. Several rice millers attended the meeting.

Awareness program Organises

BETTIAH/BIHAR, SEPTEMBER 11 (INDIAN CHRONICLE)

Under the scheme of 'Zila Hub for Empowerment of Women Mission Shakti' an awareness program regarding education, Beti Bachao, Beti Padhao was organised at Gora Belva Mahadalit locality under Yogapatty block area of West Champaran in which several, men, women and girls participated and acquainted with the various welfare schemes of the government concerned with girls and women. As in this program it was focused on domestic violence against women and other crimes against women and girls and they should remember the Mahila helpline no-181, Cyber helpline no-1930 and other important points. Not only this as in this program it was also focused on the rights of women and girls, government help and facilities. The women section of the society would be conscious and be able to protect others as girls and little children. As on this occasion sanitation kits and Mineral water were distributed among them.

Lok Adalat Organises

“On the occasion of the Lok Adalat, the problems regarding traffic Challan, the counter of Lok Adalat has been established in the campus of Bipin High School Bettiah where the problems regarding traffic Challan would be shot out on Saturday.”

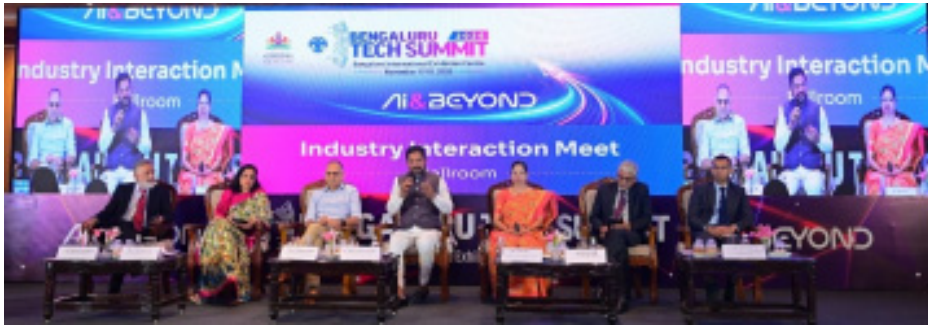

As the Secretary Zila Vidhik Seva Pradhikar Bettiah- Dharendra Pandey said that such centre was established to provide facilities to the people as well as the transport department of the district. The work of the Lok Adalat will be started at 10 AM.

As the District Transport Officer West Champaran- Amrit Raj urged the people of the District to come forward and get the benefit of the Lok Adalat. “Ajay Kr Mishra “Bettiah /Bihar

Karnataka Government Makes Preparations for 29th Bengaluru Tech Summit

Prestigious technology summit to be held in Bengaluru from November 17–19 with ‘AI & Beyond’ theme

“Indian Chronicle, Secunderabad, September 11:”The Karnataka government is making preparations for the 29th edition of Bengaluru Tech Summit 2026 (BTS 2026), one of Asia’s largest technology events. The summit will be held

from November 17 to 19 at the Bengaluru International Exhibition Centre (BIEC) in Bengaluru under the theme ‘AI & Beyond’. As part of the preparations, an Industry Interaction Meet was held in Hyderabad, where Karnataka

MLA and KEONICS Chairman Sharath Kumar Bache Gowda participated and shared details of the summit. “With a remarkable journey spanning nearly three decades, Bengaluru Tech Summit has emerged as a key platform for technology and innovation in India. BTS 2026 will feature discussions and exhibitions covering cutting-edge areas including artificial intelligence, deep tech, elec-

tronics and semiconductors, biotechnology, startups and AVGC. “The summit is expected to bring together more than 1,800 exhibitors, 25,000 delegates, over 1,000 tech startups and more than 60,000 business visitors from over 75 countries and more than 30 Indian states and Union Territories. “The three-day summit will feature dedicated sessions on AI and deep tech, fintech, health and biotech, spacetechnology, the India–USA Tech Conclave and global collaboration. Emerging priority areas such as digital infrastructure and data centres, circular economy, orange economy and electric mobility will also be discussed. “Along with a large multi-pavilion exhibition showcasing technological innovations from various sectors, the summit will feature networking programmes, investor-connect initiatives and platforms for international partnerships. “The ‘Future Makers’ programme, specially designed to promote high-potential startups, will be one of the major attractions of BTS 2026. It will include pitching sessions with investors, one-on-one mentoring clinics, discussions on fundraising and business expansion, a startup showcase and the Future Makers Conclave. “Several prominent personalities participated in the Industry Interaction Meet held in Hyderabad, including Dr N. Manjula, IAS, Chairperson, BWSSB and Secretary, Department of Electronics, IT, BT, S&T, Government of Karnataka; Kavitha C., Director, Software Technology Parks of India (STPI), Hyderabad; Dr Avinash Menon Rajendran, IAS, Director, Department of Electronics, IT & BT, Government of Karnataka and Managing Director, KITS; Jitendra Chadha, Member, Karnataka IT Vision Group and Chairman, BTS and ESDM Conference Committee; Dr B.V.R. Mohan Reddy, Founder Chairman, Cyient Limited and former NASSCOM Chairman; and Jagadish Patankar, BTS 2026 Event Curator and Executive Chairman, MM Activ Sci-Tech Communications Pvt. Ltd. “A major highlight of BTS 2026 will be ‘Embedded World India’, a global event focused on electronics, semiconductors and embedded systems, which NürnbergMesse India is organising in India for the first time. “With an expanded exhibition, international delegations, startup programmes, investor meetings, conference tracks and knowledge-sharing platforms, BTS 2026 is expected to take forward the spirit of previous editions on a much larger scale. The summit is also expected to further strengthen Karnataka’s position as a leading hub for technology, innovation and global partnerships. “As Bengaluru prepares to host technology leaders from across the world once again this November, BTS 2026 is set to provide a platform for discussions on the future of technology beyond artificial intelligence, while promoting new innovations, global partnerships and transformative ideas.

Real Estate Fraud: Woman Loses Rs 2.67 Crore; Case Registered Against Three persons in Medipally

“MEDIPALLY, (KISHORE VADDEPALLY), SEPTEMBER 11 (INDIAN CHRONICLE): Medipally police have registered a case against three persons for allegedly cheating a woman and her family members of more than ₹2.67 crore by promising to arrange valuable plots at low prices in Hyderabad and Vijayawada. The complainant also alleged that the accused threatened to kill her and implicate her in false cases when she demanded the return of her money. Based on a complaint lodged by Erra Venu Madhavi of Balaji Hills, Boduppal, police registered the case. According to the complaint, Doppalapudi Sagar, a relative and acquaintance of the complainant, claimed to be involved in real estate business and assured her that he could arrange valuable plots at affordable prices in and around Hyderabad and Vijayawada. “₹2.67 Crore Collected in Installments”The complainant stated that she paid ₹30 lakh in cash as an advance on March 21, 2025. Between March and October 2025, approximately ₹1.87 crore was transferred through online bank transactions to Sagar and Kakarla Pravalika jointly. An additional ₹80 lakh was paid in cash in several installments. The total amount paid was ₹2,67,70,000, according to the complaint. “The family allegedly borrowed money and pledged gold to arrange the funds. “Threats After Demanding Money Back”After receiving the money, Sagar allegedly delayed the registration of the plots. Following repeated demands, he returned only ₹70 lakh in installments during January and February 2026, the complainant stated. “When she questioned the accused about the remaining amount, she allegedly received threats over the phone on May 21, 2026. The complaint stated that she was threatened with serious consequences, including death, and warned that she would be implicated in false cases. “Police Probe into Assets”The complainant further alleged that the accused purchased a flat bearing number F31501 at Indiabulls Sierra Apartments in Madhurawada, Visakhapatnam, along with gold and other movable and immovable properties in the name of Kakarla Balaji, using the money collected from the victims. “Police are investigating the alleged property purchases and cash transactions. “Case Registered, Investigation Underway”Medipally police registered Crime No. 1308/2026 against Doppalapudi Sagar (A1), Kakarla Pravalika (A2), and Kakarla Balaji (A3) under Sections 318(4), 316(2), and 351(2) read with 3(5) of the Bharatiya Nyaya Sanhita (BNS). “On the directions of Medipally Inspector D. Jalandhar Reddy, Sub-Inspector E. Yadukondalu has taken up the investigation. Police said a detailed probe into the financial transactions and properties allegedly purchased by the accused is in progress.

Educational Assistance and Women’s Empowerment Programme Conducted by Lions Club of Bhagyanagar Jeevanadi — Assistance Worth Rs1,55,000

“The Lions Club of Bhagyanagar Jeevanadi organised an educational assistance and women’s skill-development programme today. “During the programme, donor Lion Dr. Sai Kiran Dwarakanath, MD, Gynecologist, provided assistance worth a total of ₹1,55,000. “As part of educational assistance, ₹25,000 each was presented to two girl students, while ₹60,000 was provided to another girl student, amounting to a total educational assistance of ₹1,10,000. “As part of women’s empowerment, two new, latest sewing machines worth ₹45,000 were donated to Sri Madhusudhan Yadav, Founder-Chairman of Spoorthi Foundation, to support women’s tailoring skill-training initiatives. “The programme was attended by chief guests Lion Dr. B. Vijaya Ranga, MJF, Hyderabad Region Chairperson, and Lion Inti Lakshmi Durga, Club President.

New Executive Body Elected for Cyberabad Police Association

“Cyberabad” 11 Sept 2026 “Indian Chronicle” “A new executive body has been elected for the Cyberabad Police Association, with 29 members chosen for various positions in the organisation.” “SI Srinivas (HC-3046) was elected as President, while Inspector Srikar Babu (19435) was elected as Vice-President.” “Priyadarshini (3251) was elected Vice-President under the SI/ASI category, Karthik Srinivas (3276) under the Head Constable category, and Rajender (5180) under the Police Constable category.” “Following the elections, the newly elected executive committee members paid a courtesy visit to Cyberabad Commissioner of Police Dr. Ramesh, IPS.” “Congratulating the new office-bearers, the Commissioner wished them a successful tenure and advised the association to work proactively for the welfare of police personnel. He emphasised the importance of addressing issues faced by the staff and strengthening welfare initiatives through the association.” “The new ex-

ecutive body is expected to play an active role in representing the interests

of police personnel and promoting their

welfare across the Cyberabad Police Commissionerate.

Anthropic blocks AI misuse for cyber, bio threats

San Francisco: Anthropic said Thursday it has blocked efforts by bad actors to use its artificial intelligence models for malicious activity such as cyberattacks, surveillance, and research that could have led to biological weapons.

As AI models grow more powerful, elaborate cyberattacks no longer require sophisticated skills and even lone individuals can create threats that would not have been possible even a year ago, Anthropic said. The company said it has added stronger safeguards in its latest models to restrict biological research that could also be used to make weapons.

“The cases we share here aren’t typical misuse, but rather examples of the most notable and novel threat activity we’ve identified to date,” Anthropic said in its third report since March 2025 describing AI misuse. The report includes snippets of the malicious code and AI prompts Anthropic said it found and it urged governments and AI competitors to identify and prevent similar abuse.

“We’re publishing this work because we believe we have a responsibility to disclose malicious misuse of our services. As models become increasingly capable, their risks will increase, unless AI developers and society’s defenders act to make them safer,” the company said.

The lengthy report by the AI startup, which is planning an initial public offering this fall, was published two days after one of its researchers announced he’s resigning over concerns that Anthropic and its competitors are not acting responsibly in AI development. He echoed concerns raised inside and outside of the industry about the technology’s potential to elude human control.

Claude was asked to support making a virus more harmful

Between December 2025 and August 2026, researchers at Anthropic found misuse by actors ranging from spyware vendors and “politically motivated individuals” to state-sponsored groups spreading propaganda.

Among the findings in the company’s report are unnamed actors attempting to use its models for research that could have led to biological weapons. In one instance, Anthropic said its systems blocked a request for Claude’s assistance in authoring a grant application for scientific funding.

“The work discussed in the application involved gain-of-function research (that is, research that genetically alters an organism to create a new or enhanced biological property) on the chikungunya virus. This gain of function research was aimed at the virus’ transmissibility and immune evasion properties,” the report

said.

Chikungunya is a mosquito-borne virus that causes debilitating symptoms such as severe pain and fever. The request involved a grant proposal for research seeking to enhance mutations to make the virus progressively more harmful. While such research could “certainly” be used to develop better vaccines and treatments, Anthropic said, “it could also be used to make the pathogen more dangerous.”

Anthropic says it can’t claim its models do no harm

None of the cases Anthropic included in its report were found to be using its newer, more powerful Claude Fable or Mythos-class models, with the exception of one illicit distillation case that Anthropic described as “an industrial-scale, covert campaign to extract a model’s capabilities and replicate them in another model without authorization.”

Anthropic said its older models, such as Claude Opus 4 and Claude Sonnet 4.5, from 2025, “were well below the threshold where they could meaningfully assist a sophisticated user in carrying out dangerous biological research.”

“As a result, safeguards on these models were less stringent, directed mostly at preventing access to content that might uplift novices in recreating known bioweapons,” the report said.

“But for today’s models — which are capable of assisting in a range of complex scientific research tasks — the evidence is no longer certain, and we cannot make that same assurance.” Because of this, Anthropic has applied “stronger safeguards that restrict access to a wide range of dual-use biological research queries” in its more recent models, such as Claude Fable 5, the report said.

As companies introduce increasingly powerful AI models, experts have called on governments to regulate the technology, rather than relying on the industry to police itself. John Thickstun, an assistant professor of computer science at Cornell University, said it is an uncomfortable position for companies like Anthropic and OpenAI to be in when they are expected to determine what is safe vs. unsafe behaviour and make “value judgments at societal scale without any kind of democratic or deliberative oversight.” Anthropic also found groups that created hundreds of social media accounts that look like they belong to ordinary people and then posted material amplifying the same political view over the course of a week. The company outlined nine such cases it found, originating in Russia, Iran, Türkiye and across the Persian Gulf, South Asia, Africa and Europe.

Flipkart Minutes Marks Two Years with 4X Growth, Reaches 150+ Cities

“““Hyderabad:““““Flipkart Minutes, the quick commerce offering from Flipkart, today marked two years since its launch in August 2024, having grown 4X year-on-year and expanded to nearly 1,200 micro fulfilment centres across 150+ cities. The platform has created more than 4 lakh direct and indirect jobs since inception, while around 60% of customers return to shop on Flipkart Minutes, reflecting the growing adoption of quick commerce across the country. “Tier 2+ markets are emerging as an important driver of this growth, with the customer base growing nearly 25X year-on-year across cities such as Ambala, Barabanki, Bhagalpur, Durgapur, Kanpur, Roorkee, Siliguri, Salem and Tiruppur. Demand in these markets is also extending beyond daily essentials, with strong uptake of products such as Korean noodles, sauces and ready-to-eat meals, alongside premium skincare and personal care categories. “Rising Gen Z Adoption Broadens the Quick Commerce Basket“Gen Z has emerged as the fastest-growing customer cohort on Flipkart Minutes, with the customer base growing nearly 5X year-on-year in the past twelve months. Gen Z drives over 45% of orders across categories such as beauty, electronics, gaming, wearables, fragrance, health and nutrition, and grooming, while accounting for 1 in 3 gourmet orders on the platform. The data points to a generation using quick commerce for a much wider range of products, from everyday essentials to premium and aspirational categories.“Kunal Gupta, Senior Vice President and Head of Flipkart Minutes, said, “In two years, Flipkart Minutes has evolved from a convenience offering into a broader shopping channel, with customers using it for much more than their daily essentials. What is particularly interesting is how quickly this behaviour is spreading beyond the largest cities, while Gen Z is also bringing new categories and new shopping occasions to the platform. With our growing network, we have an opportunity to make this experience available to more consumers across the country, while creating new opportunities for brands, farmers and local businesses to reach customers.”
