

Bright High School Spearheads Eco-Friendly Ganesh Chaturthi by Distributing 1,000 Clay Ganesha Idols

“HYDERABAD, September 12:“As part of a major initiative to promote environmental awareness and spread sustainable celebration practices, Bright High School distributed around 1,000 eco-friendly clay Ganesha idols to students and parents on the occasion of Ganesh Chaturthi. Organized under the aegis of the Lions Club, the event was conducted with the noble objective of making the younger generation and the general public aware of the vital need for environmental protection. “The event aimed to convey a strong message that devotion and environmental commitment can go hand in hand. By promoting the use of traditional clay idols, the organizers inspired students and parents to celebrate the festival with spiritual fervor without forgetting their responsibility toward nature. “Speaking at the ceremony, Vinod Yadav, Principal of Bright High School, along with key representatives of the Lions Club, emphasized the importance of environmental conservation and maintaining ecological equilibrium. They pointed out that societal well-being is intrinsically linked to the health of nature, emphasizing that protecting the environment is not merely a social obligation, but a shared responsibility for everyone. “The speakers expressed concern over the increasing use of plastic decorative items, non-biodegradable materials, toxic chemicals, and artificial colors during festive occasions. They clarified that immersing these materials along with idols in water bodies after celebrations causes severe environmental damage. “They noted that dumping chemicals and other pollutants into water bodies adversely affects aquatic ecosystems, birds, animals, and human health. Water pollution and the degradation of air quality lead to severe health issues and disrupt the ecological balance. “Therefore, representatives of the Lions Club urged the public to abandon plastic items and chemical-laden idols in favor of simple, traditionally crafted clay Ganesha idols. They highlighted that clay idols are eco-friendly and significantly reduce the pollution burden on water bodies. “They stressed that environmental protection should not be confined to slogans or campaigns alone, but must become an integral part of daily life. Small decisions made by individuals and families can drive substantial positive changes for the environment. “Instilling these values in students at an early age was the primary goal of this initiative. Speakers highlighted that educational institutions play a crucial role in molding responsible citizens by integrating environmental consciousness with cultural and social values. “As part of its commitment to environmental conservation, the Lions Club has been distributing clay Ganesha idols every year. Beyond merely handing out idols, the initiative aims to spread a broader message regarding sustainability, pollution prevention, and respect for nature. “They called upon devotees to celebrate Ganesh Chaturthi with environmental consciousness, ensuring no harm is caused to nature or future generations. “School authorities and students actively participated in the

distribution event. Vinod Yadav, Principal and Correspondent of the school, along with Lions Club officials, teachers, students, and parents, attended the program and expressed their support. “The event concluded with an appeal to reduce plastic usage, avoid chemicals, and opt for natural clay idols to ensure a clean and healthy environment for future generations.

Kuna Srisailam Goud Lays Foundation Stone for Rs 54-Lakh CC Roads in Lenin Nagar

Quthbullapur: Former Quthbullapur MLA Kuna Srisailam Goud inaugurated internal CC road construction projects valued at ₹54 lakh in Lenin Nagar, situated within the Roda Mestry Nagar division. “Speaking at the event, Goud reproached the decade-long tenure of the previous BRS administration, attributing widespread public distress to systemic neglect of core civic amenities

. He emphasized that the incumbent Congress government, upon assuming office, placed civic infrastructure at the forefront—spearheading CC road works worth approximately ₹50 crore across the constituency. “He further noted that the welfare agenda under Chief Minister Revanth Reddy—featuring zero-fare transit for women, subsidized electricity, and fine rice distribution—is yielding tangible relief for low- and middle-income households. Expressing gratitude to District In-charge Minister D. Sridhar Babu for facilitating the prompt release of funds, Goud reaffirmed his commitment to upgrading the region's urban infrastructure. “The ceremony was attended by Medchal-Malkajgiri DCC Vice President Kuna Srinivas Goud, alongside division leaders and key party functionaries.

Thanks To Telugu Audience for Making Mandaadi a Blockbuster: Soori Our Hard Work For Mandaadi Received The Right Reward: Suhas

“Suhas and Soori starrer latest box office sensation Mandaadi is produced by RS Infotainment banner. The film is directed by Mathimaran Pugazhendi and presented by Elred Kumar. Mandaadi also features Mahima Nambiar, Sathyaraj, Ravindra Vijay, Mithun, Bala Saravanan and others in key roles. Mythri Movie Distributors LLP released the film in Andhra Pradesh and Telangana on September 10. Mandaadi is receiving a very good response and is running successfully. The team held grand unanimous blockbuster celebrations on Saturday.”

“Speaking at the event, Soori said, “Thanks to the Telugu audience for making Mandaadi a blockbuster hit. Mythri Naveen Garu and Ravi Garu watched the film two days before its release and told us that it would become a blockbuster. The film has received a good response in all languages.”

“My thanks to Mathimaran Garu and Elred Garu. I also thank my brother Suhas Garu for supporting me throughout this journey. Mandaadi has become a blockbuster not only in Tamil but also in Telugu. I thank Mythri Naveen Sir, Ravi Sir and Sasi Sir for supporting us here. Thank you to the Telugu audience for showing so much love towards us.”

“Suhas said, “Thank you to the audience for making Mandaadi such a big hit, and to the media for supporting us throughout this journey. I watched the film along with Naveen Garu. On the very day we watched it, Naveen Garu told us that it would become a blockbuster.”

“Our hard work has received the right reward. Soori Anna worked extremely hard for this film. Everyone is talking about Mahima Garu and Ravindra. I thank Mathimaran Garu for giving me such a wonderful opportunity. Thank you to the audience for giving us such great success.”

“Mythri Naveen said, “I believed that this film would become a blockbuster as soon as I watched Mandaadi. I also told Suhas in advance that the film would become a hit. Soori Garu’s script selection is excellent. The collections on the second day are going to be higher than on the first day. I request everyone to watch Mandaadi in theatres.”

“Mythri Ravi said, “We watched a business cut of Mandaadi about eight months ago. We immediately sent Shashi and closed the business deal. The film was not even completed at that time. But now, our confidence has come true.”

“Theatres are getting houseful shows everywhere. This is one of our biggest hits this year. Everyone is talking about the scenes featuring Suhas and Soori, as well as the boat sequence. The team’s hard work has received the right reward. I hope the film achieves even greater success.”

“Producer Elred Kumar said, “Mandaadi is a content-driven film. We already knew that audiences would support a film like this. We are receiving a very good response from everywhere, and all the distributors are happy.”

“Just like my film Rangam, Mandaadi is also receiving great appreciation. I thank the Mythri team for supporting us throughout this journey. Mathimaran has made this film wonderfully. Soori, Suhas and Mahima all supported us greatly. We can never forget the support given by Peter Hein Garu. My thanks to every person who worked on this film.”

“Director Mathimaran Pugazhendi said, “The Telugu audience is celebrating Mandaadi. We are receiving a very good response everywhere. Once again, the audience has proved that there are no language or geographical boundaries for a good film. I thank my team for supporting me throughout this journey.”

“Mythri Sasi said, “Thank you to Elred Kumar Garu for giving us a good film like Mandaadi. We believed that it would become a hit as soon as we watched it. There were houseful shows at

many places on Day 1 itself. We increased the number of screens by 100 on the third day. This film will create many more wonders in the coming days. Soori Garu and Suhas Garu have given excellent performances. All the distributors are very happy.”

“Mahima Nambiar said, “I already knew that Mandaadi would become a hit, but I never expected it to receive this much love. We are getting a very good response in all languages. Everyone is talking about the boat race sequence. Thank you to everyone for showing so much love to the film.”

“Actor Ravindra Vijay said, “Telugu audiences always support good films. Thank you to everyone who made Mandaadi such a big success. I am proud to be part of such a great film.”

CM Relief Fund Cheque Distributed to Family of Mohammed Abdul Sameer in Habsiguda M. Parameshwar Reddy Provides Financial Assistance of Rs. 29,000

“HABSIGUDA, SEPTEMBER 12 (INDIAN CHRONICLE): A cheque for Rs. 29,000 sanctioned under the Chief Minister's Relief Fund (CMRF) was distributed to the family members of Mohammed Abdul Sameer, a resident of Ravindra Nagar in Habsiguda Division, by Uppal Constituency Congress Party In-charge M. Parameshwar Reddy on Saturday.”

“The financial assistance was sanctioned through the initiative of Kandi Shravan Kumar Reddy, Habsiguda Division Congress Party President. Speaking on the occasion, M. Parameshwar Reddy said that the Chief Minister's Relief Fund is providing significant support to poor and middle-class families undergoing medical treatment. He stated that the government is extending financial assistance through CMRF to provide relief to families unable to afford medical expenses due to financial difficulties. He assured that steps would be taken to ensure eligible beneficiaries receive government welfare schemes. The family members of Mohammed Abdul Sameer expressed their special gratitude to Chief Minister A. Revanth Reddy, M. Parameshwar Reddy, and Kandi Shravan Kumar Reddy for standing by their family during difficult times.

Traffic curbs announced for Khairatabad Bada Ganesh festival

“Hyderabad Correspondent, September 12 (Indian Chronicle): Hyderabad Traffic Police have announced extensive traffic management measures around Khairatabad ahead of the Vinayaka Chavithi festivities, with more than 30 lakh devotees expected to visit Bada Ganesh during the 10-day festival. Joint Commissioner of Police (Traffic) D. Joel Davis, IPS, along with senior traffic officials, inspected key routes and access roads on Saturday and appealed to devotees to use Metro, MMTS and RTC services instead of private vehicles. Metro services will be available from 6 am to 11 pm, while special RTC buses will supple-

ment the regular fleet. Police advised devotees to prefer weekdays and morning to early afternoon hours, as heavy crowds are expected during evenings, weekends and public holidays. Darshan will begin at 6 am daily. Four primary entry routes have been identified through Khairatabad Metro Station, Dwarka Hotel/ Telephone Bhavan, Mint Compound/IMAX and the colony route behind the idol. Traffic restrictions will be imposed towards Rajdoot Lane, Dwarka Hotel and Mint Lane, while vehicles approaching Bada Ganesh from the IMAX side will be diverted towards Necklace Road or Khairatabad Flyover. Around 500 police personnel, supported by pushing teams, will be deployed at major junctions. Dedicated pedestrian queues and designated crossing points will also be enforced. Police said Darshan will conclude on September 23, with no Darshan permitted on September 24.

Kothacheruvu Works Reviewed Ahead of Ganesh Festival

“Alwal, September 12 (INDIAN CHRONICLE)“Malkajgiri Constituency Congress Party In-charge Thota Lakshmi Kanth Reddy inspected the ongoing development works at Kothacheruvu on Saturday. He reviewed the arrangements being made to ensure that devotees do not face any inconvenience during the upcoming Ganesh Chaturthi celebrations. Thota Lakshmi Kanth Reddy said that, following the initiative of Mynampally Hanumantha Rao, the officials have been working round the clock and have brought the works to an almost-completed stage. He appreciated their efforts and stressed the need to ensure proper arrangements for the smooth movement and convenience of devotees. He also inspected the surrounding areas of the Baby Pond and reviewed the local arrangements. Thota Lakshmi Kanth Reddy announced that clay Ganesh idols will be distributed by the Congress Party on Sunday as part of an initiative to encourage eco-friendly celebrations. He called upon party leaders and workers to participate in large numbers and make the programme successful. Nageswara Rao, Sai Kumar Goud, Bhaskar and other Congress party workers participated in the programme.

No Disputed Constructions Should Be Undertaken Daily Rituals at the Temple Must Continue: Marri Shashidhar Reddy

“Indian chronicle, Secunderabad, September 12:“Former Minister, former Vice-Chairman of the National Disaster Management Authority (NDMA) and BJP National Council Member Marri Shashidhar Reddy has urged all parties not to undertake any disputed construction activities until the controversy over the land belonging to the ancient Gnananjaneya Swamy Temple in the ‘C’ Class area of Bansilalpet Division is resolved. “Representatives of the Bansilalpet Development and Welfare Association recently submitted a petition to Shashidhar Reddy, alleging that an attempt was being made by some persons to encroach upon 220 square yards of vacant land out of the 300-square-yard temple premises by putting up large sheets in the middle of the site and using fake documents. They also alleged that the temple located on the remaining 80 square yards had been closed and daily prayers stopped. “Responding to the petition, Shashidhar Reddy, accompanied by local BJP leaders, visited the area on Saturday morning and inspected the ancient temple. During the visit, he heard the arguments of both sides. “One group urged that the sheets erected in the middle of the 300-square-yard temple premises be removed and the entire land be protected, besides seeking support for construction of a new temple. They informed Shashidhar Reddy that they had complained to the Endowments Department and that officials had initiated an

inquiry, while advising that no disputed construction be taken up until the inquiry was completed. “The other group stated that they were willing to cooperate only with construction on the 80-square-yard portion and had no connection with the remaining 220 square yards. “After hearing both sides, Shashidhar Reddy asked them to produce all relevant documents in their possession. He said that no one should undertake any disputed construction or resort to any other action until the documents and the report of

the ongoing Endowments Department inquiry were examined. “He said a decision on the development of the temple would be taken after examining the records. Until then, he urged that daily puja and other rituals for the deity be conducted as usual. “Shashidhar Reddy warned that anyone undertaking disputed constructions in violation of public opinion and government regulations would face legal action. “BJP state youth leader Marri Pururava Reddy, Mahankali-Secunderabad district BJP BC Morcha president Y. Suresh Kumar, division president Ramanch Mahesh, Bansilalpet Development and Welfare Association representatives C. Prakash, Ramamohan, K. Vijay Kumar, C. Ravinder, Madan Mohan, Purushotham, R. Shivaji, Chitti, K. Shravan, Srihari and BJP leaders K. Krishna, K.M. Krishna, Ambala Eshwar Babu, Gunti Satyanarayana, Kireeti, Vamsi Krishna, M. Raghunath Goud, N. Chandra Pal Reddy, B. Vikas, K. Nares, Gopi Srinivas, Parshi Paramesh, Shravan, Pitla Srinivas, Bojja Narsing Rao and others were present.

NIMS expands advanced heart care for children

“Hyderabad Correspondent, September 12 (Indian Chronicle): NIMS has further strengthened its paediatric cardiac care programme with 19 complex heart surgeries

successfully performed during its fifth cardiac surgery camp held from September 6 to 12. A UK specialist team led by paediatric cardiac surgeon Dr Ramana Dhannapuneni joined NIMS doctors in treating children during the camp. More than 1,000 children also received outpatient consultations, with those needing surgery to be taken up for further treatment. The programme, supported by Healing Little Hearts Organisation, marked a continuation of camps conducted in 2023, 2024 and 2025. All services were provided free under Aarogyasri and TGCMRF schemes. NIMS also provided ECMO services under Aarogyasri for the first time, adding significance to the initiative. Director Rahul Devaraj felicitated the medical experts and staff involved.

PUBLIC VICTORY IN KOWKOOR: EXCISE STATION ALLOCATION CANCELLED

“ALWAL, September 12 (INDIAN CHRONICLE)“A major victory has been achieved for the residents of Kowkoor with the cancellation of the allocation of the Kowkoor Model Market building for an Excise Department station. Senior Congress leader of Malkajgiri constituency and social activist Thudimella Mallikarjun, along with his team, met former MLA and public leader Mynampally Hanumantha Rao on Saturday and personally handed over a copy of the cancellation proceedings. The order was issued by the Deputy Commissioner, Malkajgiri Municipal Corporation, Keesara Circle-01, vide Letter No. 193/DC/KC/MMC/2026, dated September 7, 2026. Speaking on the occasion, Thudimella Mallikarjun said that the initiative and intervention of Mynampally Hanumantha Rao played a crucial role in securing the cancellation. He stated that Rao had personally spoken with the Excise Minister, Malkajgiri Zone Zonal Commissioner, Keesara Deputy Commissioner and the District Superintendent of the Excise Department, strongly urging the authorities to ensure that the public property was retained for public use. Mallikarjun said that the continuous efforts and support of Mynampally Hanumantha Rao ultimately resulted in the cancellation of the allocation. As per the latest proceedings, the Kowkoor Model Market building will now be utilised for Palle Dawakhana (Basti Dawakhana), the MMC Ward Office and other municipal and public service activities. Describing the development as a victory for the people of Kowkoor, Mallikarjun expressed his gratitude to the print and electronic media, social media representatives and all those who extended their support through social media and participated in the campaign. He also expressed hope that Mynampally Hanumantha Rao's support, guidance and encouragement would continue in the future for resolving various public issues in the constituency. Those who accompanied Mallikarjun during the meeting included Gomaram Anji Reddy, Praveen Reddy and others.

Shanti Srinivas Reddy Inspects Civic Issues in Ganga Putra Colony

“Alwal, September 12 (INDIAN CHRONICLE)“Former Corporator Shanti Srinivas Reddy visited Ganga Putra Colony on Saturday and inspected various civic issues faced by the residents. She interacted with the local people and enquired about the problems affecting the colony. Residents brought several issues to her notice, including the need for a new drainage line, removal of overgrown tree branches, construction of CC roads, and other basic infrastructure requirements. Shanti Srinivas Reddy assured the residents that their concerns would be brought to the attention of the concerned officials and that efforts would be made to ensure their problems are resolved at the earliest. She stated that she would continue to work for the development of the colony and strive to provide the necessary basic amenities to residents. Arun, Giri, Sajid, Linga Reddy, Mahender, Prashanth, Mahesh, Anjaiah and others participated in the programme.

FREE MEDICAL CAMP HELD IN OLD ALWAL UNDER AKHIL GOUDA MEMORIAL TRUST

“ALWAL, SEPTEMBER 12 (INDIAN CHRONICLE)“A free medical camp was organised in Old Alwal under the aegis of the Gottimukkula Akhil Gouda Memorial Trust, as part of the Trust's 9th death anniversary observances. The programme was conducted under the leadership of Trust Chairman Rohit Goud. Alwal Circle Deputy Commissioner Bhogeshwar attended the medical camp as the chief guest and appreciated the Trust for organising the programme and providing free healthcare services to the local community. Several prominent doctors participated in the camp and offered medical examinations and health advice to the public. Dr. Srikanth of Alwal Government Hospital, Dr. Govardhan Rao of Excel Hospital, Dr. Meena, Dr. Mallesh of Arunodaya Hospital, and Dr. Aruna, along with hospital staff, provided medical services to the beneficiaries. ASHA workers Sujatha, Santoshi and Yadamma also actively participated in the programme and extended their support to the medical camp. Trust members and local representatives, including Jyothi Srinivas Goud, Padma, Narsamma, Sharada, Sulochana, Penta Reddy, Ravi Prasad, Dananna Goud, Vamsi, Mallesh, Rahul Goud, Pranay, Yashwanth, Sai Ram, Mani, Rajesh, Nithish, Harsha and Sharath Goud, among others, participated in the programme. “Speaking on the occasion, several participants appreciated the Trust's initiative to create health awareness among the people and provide essential medical services free of cost. A large number of local residents availed themselves of the free medical camp.

Clay Ganesha Idols Distributed by Lions Club of Hyderabad Sevadal

“UPPAL, SEPTEMBER 12 (INDIAN CHRONICLE)“As part of environmental protection initiatives, Lions Club of Hyderabad Sevadal organised a clay Ganesha idol distribution programme at Kamala Nagar. Lion Tummala Hemalatha, FWC Coordinator of Lions Clubs International District 320-C, attended the programme as the chief guest and distributed clay Ganesha idols to devotees. “Speaking on the occasion, Lions Club of Hyderabad Sevadal President Lion Chintapalli Phani Bhushan, Secretary Lion Tummala Nagendra Prasad and Treasurer Lion Nammula Ramesh Yadav said that protecting the environment is everyone's responsibility. They urged people to celebrate Ganesh Chaturthi in an eco-friendly manner by using clay Ganesha idols, as plaster of Paris idols may pollute water bodies. “The organisers said that the clay idols were being distributed with the aim of protecting nature and providing a clean environment for future generations. They stated that more such programmes would be organised on a wider scale to create awareness among the public about environmental protection. “Lion Ashok Kumar Yadav, Lion Adilakshmi, Lion Archana, Parvathalu, Prashanthi, Uppala Srinivas, Ganesh, Lions Club members, colony residents and local people participated in the programme in large numbers. The organisers announced that Lions Club of Hyderabad Sevadal would undertake more service activities in the coming days. “[9:08 PM, 9/12/2026] +91 93911 09207: End

Telangana Governor Calls for Eco-Friendly Ganesh Chaturthi Celebrations

“Hyderabad”12 Sept 2026“Indian Chronicle”“Telangana Governor Shri Shiv Pratap Shukla has appealed to citizens to celebrate Ganesh Chaturthi with devotion and festive spirit while giving equal importance to protecting the environment. “As part of efforts to promote environmentally responsible celebrations, the Governor, accompanied by his wife Smt. Janaki Shukla, distributed eco-friendly clay Ganesha idols to officials and employees of Lok Bhavan and

members of the media on 11 Sept in Hyderabad. “The initiative sought to encourage the use of clay idols as an environmentally friendly alternative during Ganesh Chaturthi celebrations and to create greater awareness about safeguarding water bodies and the surrounding ecosystem. “The Governor urged people to combine faith with environmental responsibility and adopt sustainable practices while celebrating the festival. He emphasised that traditional festivities can be observed with devotion while also ensuring that nature is protected for future generations. “The distribution of eco-friendly Ganesha idols at Lok Bhavan conveyed a message of responsible celebration ahead of the festival and encouraged citizens to make environmentally conscious choices during Ganesh Chaturthi.

NIMS Doctors Perform Life-Saving Heart Surgeries on 19 Children; CM Revanth Reddy Lauds Team

“Hyderabad”12 Sept 2026“Indian Chronicle”“Telangana Chief Minister A. Revanth Reddy congratulated the medical team of the Nizam’s Institute of Medical Sciences (NIMS) for successfully performing cardiac surgeries on 19 children suffering from congenital heart diseases. “The surgeries were conducted as

part of a Pediatric Cardiac Surgery Camp organised by NIMS from September 6 to 12. Following the successful completion of the camp, doctors D. Ramana Dhannapuneni and M. Amaresh Rao paid a courtesy call on the Chief Minister and expressed their gratitude for the support extended to the initiative. “The Chief Minister particularly appreciated the medical team for successfully operating on a two-month-old infant weighing just two kilograms, describing the achievement as a remarkable example of the expertise and commitment of the doctors involved. “Revanth Reddy commended the entire NIMS medical team for providing critical cardiac care to children born with heart ailments and appreciated their efforts in giving the young patients a healthier future. “Government Adviser P. Sudarshan Reddy and Jagtial MLA Dr. M. Sanjay Kumar were also present on the occasion

‘Tarnaka Seva-25’ Service Activities Continue in Tarnaka

Distribution of clay Ganesha idols, food service, mandap support and public awareness programmes held

25 service activities planned to mark Prime Minister Narendra Modi’s 25 years of public service

“Tarnaka, September 12(INDIAN CHORNICLE): “The ‘Tarnaka Seva-25’ service initiatives being organised in Tarnaka under the leadership of Sriram Venkatesh, In-charge of the Intellectual Cell of the BJP Secunderabad Mahanakali District, continued on Saturday with a series of social service and public awareness programmes. “The initiative has been taken as a mark of inspiration from Prime Minister Narendra Modi’s 25 years of continuous public service. As part of the programme, several activities including food distribution, distribution of eco-friendly clay Ganesha idols, assistance to Ganesh mandaps and awareness programmes were organised in Tarnaka Division. “As part of promoting environmental protection and encouraging people to celebrate Vinayaka Chavithi in an eco-friendly manner, clay Ganesha idols were distributed to local residents at Street No. 3, Tarnaka. Organisers urged people to prefer eco-friendly idols and contribute towards protecting the environment and maintaining the cleanliness of water bodies. “Speaking on the occasion, Sriram Venkatesh said that Prime Minister Narendra Modi has completed 25 years in public life and has continuously dedicated himself to serving the people. He said that Modi’s commitment, discipline and dedication to public service have inspired millions of people across the country. “He said that, to commemorate the Prime Minister’s 25 years of public service, 25 different service-oriented programmes are being planned under the ‘Seva-25’ initiative. As part of this effort, five programmes were taken up on Saturday, including support to Ganesh mandaps, awareness programmes for youth, food distribution and distribution of clay Ganesha idols. “Sriram Venkatesh said that the objective of the initiative is not only to provide immediate assistance to people but also to encourage the spirit of social responsibility among the younger generation. He said that several more programmes would be organised in the coming days to create awareness among youth about the importance of community service and participation in social activities. “Avaneesh, son of BJP Telangana State President N. Ramachander Rao, said that service to society should not be limited to a single day or occasion, but should be treated as a continuous responsibility. He appreciated the efforts being made through ‘Tarnaka Seva-25’ and said that such initiatives would help strengthen the spirit of service among people, particularly the youth. “Tarnaka Division BJP President Kante Karunakar said that Prime Minister Narendra Modi’s 25 years of public service are an inspiration to everyone. He said that, taking inspiration from Modi’s dedication to public service, the BJP would continue organising various social service programmes in Tarnaka and work closely with local residents. “The organisers said that the ‘Seva-25’ initiative would focus on a range of activities aimed at public welfare, environmental protection, youth awareness and community participation. They expressed their intention to involve more youngsters and local residents in the upcoming programmes. “Advocate Srinivas, Subba Rao, Krishna Goud, Deva, Radhakrishna, Mohan, Pawan, and other BJP leaders, party workers, youth and local residents participated in the programmes.

Madhu Yaskhi Goud Congratulated on Appointment as All India Professionals' Congress Chairperson

“Nacharam September 12(INDIAN CHRONICLE): “Former DCC OBC Chairman of the Medchal-Malkajgiri District Congress Party, Bongoni Umesh Goud, met Madhu Yaskhi Goud and extended his warm congratulations on his appointment as the Chairperson of the All India Professionals' Congress (AIPC). “Umesh Goud congratulated Madhu Yaskhi Goud on his new responsibility and expressed confidence that, under his leadership, the All India Professionals' Congress would further strengthen its presence across the country and work towards bringing professionals from various fields closer to the Congress party. “He said that professionals play an important role in shaping society and contributing to the development of the nation. He expressed hope that the AIPC, under Madhu Yaskhi Goud's leadership, would provide a strong platform for professionals to participate actively in public life and contribute their knowledge, expertise and ideas to nation-building. “Umesh Goud also

wished Madhu Yaskhi Goud success in discharging his new responsibilities and expressed confidence that his experience and leadership would help the organisation achieve greater progress. “Ramu, Raj Kumar, K. Suresh, Venu and others were present on the occasion.

Telugu Teacher Neelam Ganesh Selected for Upadhyaya Ratna Award – 2026

“BODUPPAL, SEPTEMBER 12 (INDIAN CHRONICLE): Neelam Ganesh, a resident of Boduppal and Telugu teacher at Newton Grammar School, has been selected for the Upadhyaya Ratna Award – 2026 in recognition of his dedicated services to the Telugu language and education. “The award was presented during the fifth annual celebrations of Jagathi Arts, held at Sundarayya Kala Nilayam on the occasion of Telangana Language Day, organised under the auspices of the Telangana Government's Department of Language and Culture. The event recognised the contributions of talented individuals and honoured outstanding teachers for their services. “Neelam Ganesh, who has been serving as a Telugu teacher for several years, received the prestigious award for his dedication to teaching and promoting the Telugu language. “Speaking on the occasion, Ganesh said that receiving the award had increased his responsibility and that it was his duty to highlight the greatness of the Telugu language to the best of his ability. He expressed his gratitude to the dignitaries who presented the award and to everyone who conveyed their congratulations.”

New Ganesh Mandapam Inaugurated at Kranti Colony

“Former Boduppal Deputy Mayor Kotha Sravanthi Kishore Goud Constructs Mandapam with Own Funds

“Chief Guests: Former Corporator Kotha Chander Goud and Senior Congress Leader Kurri Shivashankar

“BODUPPAL, SEPTEMBER 12 (INDIAN CHRONICLE): A new Ganesh mandapam of the Sri Ganesh Association at Road No. 1, Kranti Colony, under the Chengicherla Division of Medchal Municipal Corporation, was inaugurated with grandeur. Former Boduppal Deputy Mayor Kotha Sravanthi Kishore Goud

constructed the mandapam with her own funds and formally inaugurated it. “Former Corporator Kotha Chander Goud and senior Congress leader Kurri Shivashankar attended the inauguration as chief guests. They extended their best wishes to the residents of Kranti Colony on the occasion of Ganesh Chaturthi and expressed hope that the Vinayaka Chavithi and Navaratri celebrations would be conducted peacefully with devotion and religious fervor. The colony residents expressed their special gratitude to Kotha Sravanthi Kishore Goud for constructing the Ganesh mandapam with her own funds. Association members, colony residents, and others participated in the programme. “[8:16 PM, 9/12/2026] +91 93911 09207: End

13th state-level sub-junior yoga competitions conclude in Karimnagar

The 13th state-level sub-junior yoga competitions concluded at Alphores e-Techno School, Kothapalli, Karimnagar, with the district emerging as overall champion.

Karimnagar: The 13th state level sub-junior yoga competitions (girls and boys) culminated on the premises of Alphores e-Techno School at Kothapalli here on Saturday. Alphores educational institutions chairman V Narendar Reddy was chief guest of the ceremony. The competitions were organised by the Karimnagar district Yoga Association.

Speaking on the occasion, Narendar Reddy opined that sports, particularly in yoga, play a vital role in mental, physical and emotional fitness among students. He said winning and losing are part of a game. He advised participants to be sportive. He was all praise for the organisers for successfully conducting the event in the district. According to the organisers, Karimnagar district stood as the overall champion, while Rangareddy district figured at the second spot and Nizamabad took third place. Winners were presented with trophies and medals. Deepak, a student was felicitated for excelling in a national yoga event.

Telangana Yoga Association State president SN Reddy, former chairman Sardar Ravinder Singh and others were present. Geographic Reference

ISRO says remains at centre of India's space programme, refutes media reports as 'baseless'

ISRO has clarified that it will not be privatised and will continue to lead India's space programme, focusing on advanced research, strategic missions, human spaceflight, next-generation launch systems, and planetary exploration. The private sector's growing role is meant to complement ISRO's capabilities, scaling mature technologies and expanding India's space ecosystem under reforms initiated since 2020.

New Delhi: The Indian Space Research Organisation (ISRO) on Sunday issued a clarification regarding media reports on its role amid space sector reforms, saying it remains at the centre of India's space programme, leading national efforts in advanced research, strategic capabilities, human space-flight, next-generation launch technologies, the Bharatiya Antariksh Station and lunar and planetary exploration, while a wider Indian ecosystem provides the scale needed to realise India's 'Space Vision 2047'. Stream History Documentaries

In a detailed post on X, the space agency said there has been considerable reporting in parts of the media around the future role of ISRO including speculations and misinformation that there is an attempt to privatise ISRO or reduce its role.

"These assertions are completely baseless and incorrect. We wish to categorically state that ISRO will neither be privatised nor will its importance be diminished. ISRO will continue to remain India's principal institution for advanced space research and technology development, national and strategic missions, space science and exploration, and critical and frontier space capabilities," said the space agency. Access Satellite Data

The participation of private sector in space is not about reducing ISRO's role.

"It is about enabling ISRO to focus even more strongly on the next generation of India's space programme, while industry scales mature technologies and capabilities. What is changing is not the importance of ISRO, but the scale and structure of India's space ecosystem," it noted.

The space-sector reforms initiated since 2020 and institutionalised through the Indian Space Policy 2023, along with progressive liberalisation of FDI policy, aim to create a larger, stronger and globally competitive Indian space ecosystem. Try CAD Software

ISRO said that industry, start-ups and academia are being enabled to participate across the space value chain, complementing and multiplying ISRO's capabilities. The reforms should therefore be seen as ecosystem expansion and capability multiplication, not privatisation.

"As India's industrial and technological capabilities have grown, mature and scalable activities can increasingly be undertaken by Indian industry. ISRO has already transferred around multiple technologies to industry. Transferring a mature technology does not mean ISRO is withdrawing from that domain," said the space agency.

It enables large-scale production, commercialisation, innovation and access to global markets while allowing ISRO's scientific and technical manpower to concentrate on advanced research, next-generation technologies and complex national missions. Search Public Records

The transition is, therefore, towards an "ISRO-led national space ecosystem."

"ISRO's role will progressively strengthen in areas where its scientific expertise matters most: frontier R&D, advanced technologies, human spaceflight, next-generation launch systems, deep-space and planetary missions and strategic national capabilities. It will continue developing cutting-edge technologies, including advanced payloads for communication, navigation and Earth observation,

sensors, propulsion systems and other critical technologies," the X post elaborated.

Meanwhile, mature and routinely manufactured systems can increasingly be scaled through industry. Production of mature launch vehicles, routine satellites and other established systems can increasingly be undertaken by industry or PSUs through appropriate competitive processes.

"This allows ISRO to devote more resources and scientific manpower to the

next generation of technologies and missions, while the wider ecosystem provides the investment, manufacturing capacity and scale required by an expanding national space programme," it said. Explore Stargazing Apps

India's ambitions include establishing the Bharatiya Antariksh Station by 2035, undertaking an Indian crewed mission to the Moon by 2040, developing next-generation and reusable launch systems, pursuing sustained lunar and planetary exploration, and establishing India as a major global space power.

"These are technologically demanding missions that require ISRO to remain focused on advanced research and capabilities that cannot simply be substituted by commercial activity. The objective is, therefore, to enable industry to scale mature capabilities while ISRO pushes India towards the next technological frontier," said ISRO

The emergence of a vibrant private space ecosystem is already one of the major outcomes of 2020 space reforms.

From only a handful of Indian space startups in 2020, India today has more than 450 startups, working across launch vehicles, satellites, propulsion, ground systems, Earth observation, communications and space applications. Stream History Documentaries

"India's space economy is presently estimated at around \$8.4 billion, still a relatively small share of the rapidly expanding global space economy. India aims to increase its share of the global space market to \$44 billion by 2033. That scale cannot be achieved through government resources and ISRO's manpower alone. It requires private capital, industrial capacity, entrepreneurship and global market access," explained ISRO.

Hyderabad to host 1-GW data centre; promises jobs but environmental concerns loom

Hyderabad is set to host one of the country's largest data centres with a 1-GW capacity, promising a major technology push and thousands of jobs. However, the project has triggered concerns over its massive electricity and water requirements, with experts warning of environmental strain in a city already facing resource challenges.

Hyderabad: The decision to set up one of the country's largest Data Centres with a 1-GW capacity in Hyderabad promises a technology impetus besides thousands of direct and indirect employment. Networking

However, the move does come with a flip side – concerns about the environment that are being debated globally in correlation with such facilities. Questions are now surfacing as to how Hyderabad, which neither has water resources in abundance nor power self-sufficiency, could meet the high demands of such a massive Data Centre campus.

Has the State government worked out the finer aspects and drawn up a blueprint to sustain the energy and water resources apart from addressing other environmental concerns. The city is already home to over 30 Data Centres and questions are now being raised on the addition of a huge 1-GW facility further straining the resources. Computer

Servers

A Data Centre typically comprises multiple computer servers, data storage devices and network equipment that aid in providing IT services to organisations to store, manage, process and transmit large amounts of data. These centres consume a large amount of electricity to operate round-the-clock.

A 2024 study – Environmental Burden of United States Data Centres in the Artificial Intelligence Era – conducted by researchers in the US revealed that 2,132 US data centres accounted for more than four percent of total US electricity consumption between September 2023 and August 2024. Of the total electricity consumption, 56 percent was drawn from fossil fuels.

The International Energy Agency (IEA) has projected the global electricity consumption for Data Centres to double to reach around 945 terawatt hours by 2030. This is what Japan consumes annually. In addition, the

projected consumption represents three percent of the total global electricity consumption in 2030. Jobs

As most of the electricity is generated from fossil fuels, there is a huge environmental impact as it increases the carbon intensity and global warming. The study in the US revealed that 56 percent of electricity consumption by 2,132 US Data Centres between September 2023 and August 2024 was drawn from fossil fuels that generated more than 105 million tons of CO₂e, which was 2.18 percent of US emissions in 2023.

“As the Data Centres operate round-the-clock, they generate a lot of heat and temperature around such centres is more compared to other areas. We recently petitioned with the union government seeking a notification of a distinct environmental impact assessment category for ‘Heat-Generating Centres’ including Data Centres, server farms, and comparable continuously heat-rejecting facilities under the EIA Notification,

2006. We have sought a mandatory public hearing for such centres,” said Dr. Donthi Narasimha Reddy, Public Policy Expert.

As the data centres operate 24x7 and 365 days, it raises the temperature in the room, mandating a cooling strategy via chilled air through large ducts or releasing chilled water via piped cooling loop. A recent study by the IEA estimates that a 100-megawatt Data Centres could consume roughly 2 million litres per day. Considering the IEA estimates, a 1-GW data centre in Hyderabad may require 20 million litres a day and 7.3 billion litres per year.

“The city has already witnessed a water crisis even before the summer season commenced this year. We cannot stop the development but there is a need to increase the water footprint in the city. The companies that are setting up Data Centres should also take up water conservation projects,” said a city-based water conservationist and environmentalist.
