The allegations against Amaravadi are untrue

INDIAN CHRONICLE KHAMMAM K SANJAY ““Advertisements that harm the self-esteem of Arya Vaishyas should be avoided”“— Kodumuri Jagannatham Gupta, State Executive Committee Member”“Khammam, September 26:”“State executive member Kodumuri Jagannatham Gupta said that the allegations leveled by some people against Telangana State Arya Vaishya Mahasabha president Amaravadi Lakshmi Narayana are contrary to facts. Those who claim to be in power for 12 years have been asked to answer for the efforts made to strengthen the Arya Vaishya Mahasabha after the formation of Telangana state. After the separation of Telangana state from Andhra Pradesh, Amaravadi Lakshmi Narayana worked in many aspects like increasing the membership, solving the legal problems and strengthening the community. At that time, he was also successful in getting 5 acres of land with the help of the government. It has been clarified that Amaravadi is running for community programs at his own expense and with his own funds.”“Jagannatham Gupta said that it is not appropriate to create misconceptions in the Arya Vaishya community by making baseless allegations in the name of theft or duplicate memberships.

He said that it is not appropriate to link the contributions of donors who have volunteered for community development projects like Arya Vaishya Atmiya Bhawandi, Telangana Bhawandi in Tirumala and Bhawandi Renovation in Chinthalbasti to posts. It is advised that no one needs to buy positions with money, and they should not damage the self-respect of Arya Vaishyas by making baseless allegations about the collection of memberships. In particular, the people who worked in the Amaravadi working group in the past need to explain to the society why they remained silent for so many years and only now are making these allegations.”“Amaravadi

Lakshmi Narayana fought on the issue of allotment of the building in Chintalbasti to Telangana, and regarding the allotment of land in Uppal Bhagayat, Jivo was issued during the then government. He said that when construction programs related to the development of the society are going forward, political criticism and personal accusations will cause damage to the society itself. He said that everyone has the responsibility to respect the verdict of the people when the election is conducted in accordance with the court process and the results are announced. Instead of criticizing the community programs attended by the Chief Minister or other dignitaries from a political point of view, it is suggested to look at the benefits to the Arya Vaishya community through them.”“Kodumuri Jagannatham Gupta said that Arya Vaishyas are not in a position to believe whatever anyone says, Arya Vaishya society is a society that thinks and examines everything and takes a decision. It is not an excuse to say that nothing has been done after being in power for 12 years, after the formation of Telangana, expansion of membership, resolution of legal issues, community strengthening and the foundation of future structures have been undertaken. Those who want to come back to power should refrain from accusations and personal criticism and take up programs useful to the society and win the hearts of Arya Vaishyas. He said that the elections will come again, then they can put their performance in front of the people and ask for support, and the Arya Vaishya community will decide who to elect.
