Where is the cellar for Garuda Shopping Mall in Bhuvanagiri town? Who owns the place where the transformer is installed? Is it the government? Is it the shop owner? What is the reason for the officials not to speak up?

““(Yadadri Bhuvanagiri District Bureau.. Indian Chronicle.. October 1):- The lack of a cellar for a shopping mall in Bhuvanagiri town.. The shop owner setting up a shopping complex against government permissions.. Setting up a transformer on government land... Did the officials get involved in this matter on a large scale? To what extent did the relevant political leaders get involved?... is a source of many doubts among the people of Bhuvanagiri town. In this context, “People are expressing their concerns about how reasonable it is to litter the roads.. The Garuda Shopping Mall issue in Bhuvanagiri town has now become a topic of discussion. The lack of cellar parking for a large commercial complex, the installation of transformers and generators, the placement of garbage management on roads, etc. are raising many questions among the public. Are the permissions granted to the commercial complex the same as the conditions at the field level? The issue needs to be clarified.““Where is the cellar parking...? ““Parking facilities are crucial for the vehicles of consumers coming to commercial complexes. However, many doubts are being expressed regarding the cellar parking in Garuda Shopping Mall. There is no cellar parking as shown in the building plan. While it should be used for cellar parking, it is being used for the shopping mall.“If the parking facilities are not adequate, vehicles coming to the shopping mall have to stand on the roads, causing traffic problems.““** In whose place is the transformer... generator?“* “On the other hand, there is also a discussion on the installation of the transformer and generator for the shopping mall. Were these installed on the land belonging to the shopping mall management? Or did they use the road space used by the people...? Questions are being raised. Are there permissions from the relevant departments for the installation of transformers and generators...? Were they installed in accordance with the rules? The authorities need to clarify these issues... There is also criticism of the garbage management around Garuda Shopping Mall. People in the town in particular are expressing anger. Students are questioning why garbage from a commercial complex is being dumped in the premises of a government educational institution. "Is this the premises of a government junior college... or a municipal dumping yard?" Students and locals are expressing anger. They say that if garbage accumulates in the premises where students study, it is likely to affect the students along with sanitation problems.““Notices issued: Municipal Commissioner *““Bhuvanagiri Municipal Commissioner K. Chandraprakash Reddy said. The Commissioner made it clear that legal action will be taken if it is found that the rules have been violated causing problems to the people. He said that the authorities are looking into the above issues related to the shopping mall and the rules should be followed so that the people do not face any problems.““Interest in the actions of the authorities **““The announcement of the issuance of notices by the Municipal Commissioner has raised interest among the townspeople about the further actions. What explanation has the shopping mall management given on the issues mentioned in the notices? It remains to be seen what steps will be taken to comply with the rules....Similarly, it remains to be seen what steps the municipal authorities and the college management will take regarding the accumulation of garbage in the premises of the Government Junior College. When the concerned Commissioner was tried for an explanation on this matter, they were not available.

SIR: Officials told to clear 25,000 notices pending for hearing.

Karimnagar October 01, Khaja Sikandar Mohiuddin (Correspondent): Karimnagar Municipal Commissioner Prafull Desai has directed Booth Level Officers (BLOs) and supervisors to complete the processing of nearly 25,000 notices pending for hearing under the second phase of the Special Intensive Revision (SIR) of electoral rolls within a week.

Mr. Desai issued the directions at a review meeting with MROs and BLO supervisors of Karimnagar Urban, Karimnagar Rural and Kothapalli mandals at the Karimnagar Municipal Corporation meeting hall on Thursday.

Around 93,000 notices had been issued in the Karimnagar Assembly constituency as part of the second phase of the SIR exercise, of which about 25,000 were yet to be taken up for hearing, officials said.

Mr. Desai directed BLOs to visit the homes of electors who had not appeared for hearings despite receiving notices, collect the required documents and ensure their online submission without delay. Supervisors were asked to monitor the exercise and ensure that at least 30 cases were processed and uploaded each day.

Officials were also instructed to serve notices that remained pending and scrutinise the draft electoral roll for duplicate entries and other discrepancies. Supervisors were asked to issue speaking orders in cases involving deceased electors identified in the published draft roll.

Where documents could not be uploaded during household visits, BLOs were instructed to submit them along with the notices for online registration at the respective MRO offices in Karimnagar Rural and Kothapalli mandals.

The Commissioner asked officials to complete the online registration of documents already collected during hearings by Friday and stressed the need for accuracy while uploading details. He also appealed to electors who had received notices to attend the hearings with the required documents to facilitate disposal of their cases.

Canon India to more than double printing retail network, expands to over 10,000 retailers across 700 cities

“““““““Hyderabad:“““““““Canon India, a leader in digital imaging solutions, today announced plans to expand its consumer printing network to more than 10,000 active retailers across 700 cities by the end of 2027, doubling its current reach. Backed by sustained double-digit year-on-year growth in its Consumer Printing business, the expansion aims to improve product accessibility and strengthen Canon’s presence across high-potential Tier II, III and IV markets. This strategic expansion will further unlock Canon’s next phase of growth across consumer, SME, education, enterprise and institutional segments.““As printing needs grow across homes, education, entrepreneurship and businesses, Canon is strengthening its presence across Tier II, III and IV cities, where rising entrepreneurship, digital adoption and education-led demand are creating new opportunities for printing solutions. By expanding its network across 700 cities, Canon aims to bring its products closer to customers while strengthening product availability, brand visibility and access to expert consultation and service support. This expansion is complemented by investments in product innovation, digital commerce and partner capabilities, enabling Canon and its partners to gain deeper insights into local requirements and respond with relevant solutions for diverse customer segments.““Building on the Canon Passport Program, which supports more than 5,000 active reseller partners through a digital rewards and engagement platform, Canon India is introducing BizBee to extend its partner-enablement efforts to the B2B ecosystem. The platform will provide System Integrators, Value-Added Resellers and other partners with access to incentives, product and solution training, technical certifications, business resources and digital tools, enabling stronger capabilities and solution-led engagement. Alongside its expanding retail and omnichannel presence, BizBee will help build a more connected and future-ready partner ecosystem.““Speaking on the expansion, Mr. Toshiaki Nomura, President & CEO, Canon India, said, “India is central to Canon’s long-term growth ambitions, underpinned by the resilience of its economy and the emergence of new centres of enterprise and consumption. As education, digitisation and infrastructure reshape demand across Tier 3 and Tier 4 markets, we see a significant opportunity to unlock the next phase of growth for our printing business.

Sonalika Scripts a Historic Sales Record by Crossing 1 Lakh YTD Overall tractors in just 6 months

“““Hyderabad:“““India’s No. 1 tractor export brand Sonalika Tractors raised its own performance benchmark in the magnificent 30th anniversary year as it has crossed 1 lakh YTD tractor sales in just 6 months (Apr-Sept'26). A milestone that demanded a full year eight years ago has now been achieved by the company in just half the time, thereby marking a decisive leap in the Sonalika’s scale, speed and execution at every horizon. Continued improvements in its Dumdaar tractors, closer engagement with farmers, meticulous production planning and coordinated dealer execution have supported this performance.“The achievement reflects Sonalika’s enduring spirit of delivering ‘Khud Se Jeetne Ka DUM’ to farmers so that they can outperform their own benchmarks in the field. The same spirit has powered Sonalika to clock record performance and steered the brand from achieving 50,000 tractor sales annually to reaching 1,00,000 tractor sales in just 6 months.““ Sonalika has consistently transformed its every achievement into a new challenge with same passion and courage which makes extraordinary achievements possible. As India prepares to enter its peak festive season, Sonalika has already its strengthened product availability by achieving its highest ever Monthly production of 19,000 tractors at its World's No.1 plant in Hoshiarpur and aligned its dealer network to respond faster to rising customer demand.““Mr. Raman Mittal, Joint Managing Director, International Tractors Limited, said, “The biggest sign of progress is when we surpass ourselves. That is the spirit behind our ‘Khud Se Jeetne Ka DUM’ - the courage, the fire and the restlessness to keep pushing beyond what we have already achieved. When we crossed 50,000 annual tractor sales, our hunger was to reach 1,00,000 annual tractor sales. When we reached 1,00,000, we challenged ourselves again: could we achieve it in half the time of 6 months instead? Today, we have answered that ambition with our fastest-ever performance."
